Home: Lagos, Nigeria, Lagos (Nigeria)

ABOUT ME

I enjoy teaching a lot. Highly motivated and detail-oriented entry-level Angular developer seeking an opportunity to utilize my skills and knowledge to contribute to the development of innovative web applications. Eager to work in a dynamic team environment and further enhance my proficiency in Angular development.

WORK EXPERIENCE

Web Design Instructor (HTML, CSS, JAVASCRIPT, BOOTSTRAP, GIT, NODE, ANGULAR)

Hiit, Plc [07/09/2022 – Current]

City: Ikeja

Country: Nigeria

As a web design instructor at Hiit, Lagos, my duties included:

- **Curriculum Development:** Designed and developed a comprehensive and up-to-date curriculum for web design courses, ensuring that it aligns with industry standards and best practices.
- **Classroom Instruction:** Conducted engaging and interactive classroom sessions to teach students various aspects of web design, including HTML, CSS, JavaScript, and responsive design.
- **Collaboration:** Collaborated with students and other instructors and faculty members to improve the overall quality of the web design program. Sharing resources, exchanging ideas, and contributing to curriculum enhancements.
- **Assessment and Grading:** Developed assessment methods, such as quizzes, assignments, and projects, to evaluate students' understanding and progress.
- **Mentorship and Guidance:** Served as a mentor to students, offering guidance and support in their learning journey. Provided career advice, and helped students develop a professional portfolio to showcase their work.

EDUCATION AND TRAINING

B.Tech in Mathematics

Federal University of Technology, Owerri [09/09/2013 – 09/09/2018]

City: Owerri

Country: Nigeria

Website: <https://futo.edu.ng/>

MSc. in Applied Cyber Security

Kadir Has University, Turkey & Cyril and Methodius University, UKIM, Skopje, North Macedonia. [22/08/2023 – Current]

Website: <https://cybermacs.eu/>

PROJECTS

GitHub Finder App (HTML, CSS, JavaScript, Axios)

- Created a simple web application using HTML, CSS, and JavaScript that enables users to search for GitHub users and display their profile information using the GitHub API and Axios.
- Demonstrated proficiency in working with APIs, making asynchronous requests, and handling API responses using Axios.
- Gained valuable experience in managing asynchronous operations using promises and handling potential errors.

Housing in Buenos Aires

Supervisor: World Quant University | Applied Data Science Lab | [My Project Link](#)

- I created a ***machine-learning model*** that predicted apartment prices in Buenos Aires, Argentina.
- I created a ***linear regression model*** using the *scikit-learn* library and built a data pipeline for imputing missing values and encoding categorical features, improving my model performance by reducing overfitting, and created a dynamic dashboard for interacting with my completed model, and determined from my model that there are regional differences in the real estate market.
- **Skill Acquired: Machine Learning**

PROFESSIONAL DEVELOPMENT

Massive Open Online Courses I Completed with Certification Links

[18/09/2019 – Current]

Data Structure and Algorithms (University of California San Diego)

- [Algorithmic Toolbox](#), [Data Structures](#), [Algorithms on Graphs](#), [Algorithms on Strings](#), [Advanced Algorithms and Complexity](#), [Genome Assembly Programming Challenge](#), [Data Structures, and Algorithms specialization certificate](#)

SKILLS

Programming

- Experience with HTML5, CSS3, JavaScript, Angular framework and TypeScript
- Strong understanding of front-end development principles and best practices
- Knowledge of responsive web design and cross-browser compatibility
- Familiarity with version control systems, such as Git.

Languages

Igbo (Native), English (Professional), German (Intermediary), French (Elementary), Spanish (Elementary)
